What our patients say...

Perfect Smile Parsons Green is such a friendly practice, you immediately feel at ease which is so refreshing as going to the dentist can be daunting. The cosmetic dentistry and care is first class and I have received so many compliments on my teeth without people even knowing I had veneers.

Mary is amazing and always takes me through what she's doing - never makes me feel anxious or scared despite my phobia of going to the dentist! She's a wonderful clinician and despite having moved across town, I would never go anywhere else.

Tim was so lovely and very informative. He showed me cases that were similar to mine and gave me alternative treatments which was very helpful. Everyone there was so friendly. I would definitely recommend.

The practice is nice and tidy with modern equipment. The receptionists have great communication skills, assistants were caring and César did a great job explaining each step and talking me through it all which I appreciated a lot.

My treatment and the service overall was brilliant. My dentist Azom, I can't rate highly enough. He is a marvellous and dedicated dentist and a wonderful and caring person.
